PINEWOODS ELEMENTARY

2021 - 2022

TYPES OF ASSESSMENTS

I-READY DIAGNOSTIC

i-Ready Diagnostic is an adaptive assessment designed to provide teachers with actionable insight into student needs. The Diagnostic offers a complete picture of student performance and growth, eliminating the need for multiple, redundant tests. Diagnostic results also set a personalized learning path for each student, ensuring they're working on instruction that matches their unique learning needs.

EXEMPLARS

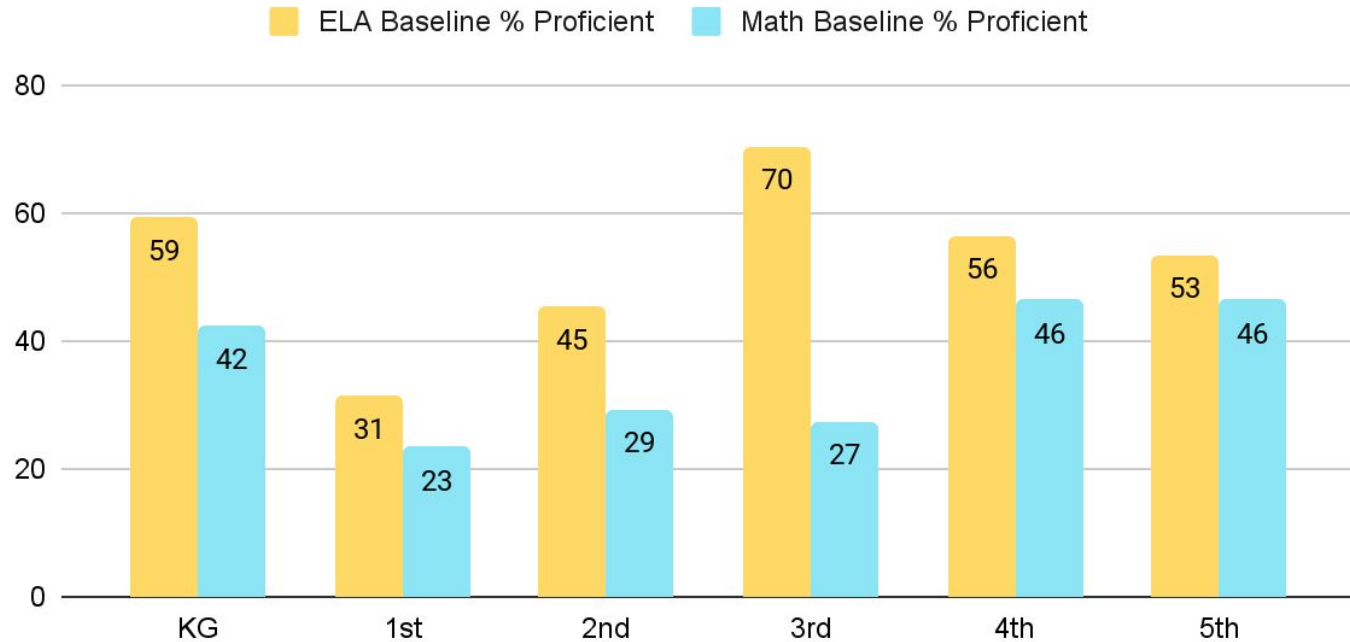

ELA and Math Exemplars are district created assessments for reading and math. Each assessment is standards-based and scoring aligns with end of year achievement levels. Teachers use the data to design intervention and enrichment to ensure all students are getting the support they need in reading and math.

STANDARDS MASTERY

i-Ready Standards Mastery provides flexible assessments designed to measure specific grade-level standards. *Standards Mastery* allows educators to quickly identify when reteaching or remediation is needed as standards are covered across the year. The program's intuitive reports visualize student performance on recently taught material and highlight misconceptions that may prevent students from making progress.
